## **AFTER CARE WORKSHEET**

### **Urine Culture**

#### **If your urine was POSITIVE during your office visit:**

A three day supply of antibiotic will be called to your pharmacy

Your Urine will be sent off to the lab for a culture.

The results will be back in 2-3 days.

At this time we may need to change the medication you are on.

The Nurse will call you with the results ONLY if you need

more medication or if your medication needs to be changed.

You will NOT get a phone call if the Urine Culture was NORMAL.

#### **If your urine was NEGATIVE during your office visit**

#### **but YOU THINK you may have a Urinary Track Infection**

Your Urine will be sent off to the lab for a culture.

The results will be back in 2-3 days.

The Nurse will call you with the results ONLY if you need medication.

You will NOT get a phone call if the Urine Culture was NORMAL.
