

Resources For every step of the patient journey

The portal contains a wide range of complementary resources for your patients and practice. Here are some of the materials that are most frequently accessed.

<p>Disease Awareness</p>  <p>Bladder Matters</p> <p>An easy-to-read book designed to educate patients about OAB and symptom management.</p> 	<p>Treatment Naïve</p>  <p>Treatment Naïve Checklist</p> <p>A patient-friendly handout that provides an overview of OAB and asks patients questions about their bathroom behaviors to assess if they are experiencing symptoms.</p>	<p>Treatment Initiated</p>  <p>Treatment Expectations Handout</p> <p>Patient-friendly handout that features helpful tips for keeping your patients on track with their OAB medication and for setting expectations for treatment.</p>	<p>Treatment Follow-up</p>  <p>Bladder Diary</p> <p>A three-day journal in which patients can record their bathroom behaviors and symptoms so you can assess if they have OAB.</p>
---	--	---	--

Some of these resources are available in a variety of languages for non-English speaking patients in your practice.

Visit AstellasResources.com to download materials for your OAB patients today.

Register with your practice information to receive updates when new resources become available.
